School Visits 2024 Rates and Presentations

Fantasy Mapmaking 101

We start with a questionnaire about our fantasy world
and then draw it together!

Being a Science Illustrator

Discover how a science illustrator works and researches their
subject matter. Try some science illustration with the
“bone illustration starter” from me.

Write and draw your own story.

Enjoy seeing my first illustrated story (when I was 12) and then
after a quick idea session we draw our own.

Presentations are 60 mins long with a Q and A time built in.

Virtual (150.00) or in person (175.00)

Email me to discuss larger groups than a classroom or if you live
outside the Greater Pittsburgh area.

Signed books can be ordered in advance. Email me for details.
